

VESIHELMI SPA (FORSSA)

The Vesihelmi aquatic leisure centre attracts both young and older children. The favourites are, without a doubt, the diving platform, water slide, waves and whirlpools. There is a shallow pool for the smaller children with its own slide and it is nice to learn the basics of swimming with the help of parents in the warm therapy pool. The staff will provide buoyancy aids and other equipment to help develop swimming skills.

The centre has a fitness pool and a plunge pool. During the summer months one can take some sun on the roof terrace. The use of two gyms is included in the entrance fee for the adult visitors.
